Health & Safety

Hi Level is committed to keeping people safe while working at height and has put robust processes in place to ensure the safety of both its installation teams and of other contractors and staff. Not only do our mezzanine floors need to be designed to fit for purpose based on the required loads, they need to be installed safely on site.

Health & Safety Policy
Hi Level is a certified construction CMAA contractor. We hold accreditation for ISO 14001 which focuses on enhanced environmental performance, achievement of environmental objectives and fulfillment of compliance obligations.

Environmental Management

We deliver value engineered mezzanine floor solutions, whereby we use structural steel used in our floors. This helps keep our environmental impact.

ISO 14001 - Environmental Management
We hold accreditation for ISO 14001 which focuses on enhanced environmental performance, achievement of environmental objectives and fulfillment of compliance obligations.

Hi Level is a certified construction CMAA contractor. We hold accreditation for ISO 14001 which focuses on enhanced environmental performance, achievement of environmental objectives and fulfillment of compliance obligations.

Technical & Professional Ability

Our high calibre team based in Peterfield includes Structural Engineers, Project Managers, Surveyors and we assign an experienced Project Manager to every project to give you a multi-point of contact during production and installation.

Trade Memberships

- CMAA - Contractors Health & Safety Assessment Scheme
- AMBA - Automated Material Handling Systems Association
- Construction Line - Silver member

Professional Memberships

- British Standards Institute
- Institute of Civil Engineers
- Institute of Engineers of Ireland

Quality Assurance

All Hi Level floors are designed to meet all relevant quality standards. We were nominated by SEMA in 1997 as technical consultant to the Department of the Environment, Transport and Regions and we contributed to the writing of BS 5938 437: Industrial Platform Floors.

Hi-Level Quality Policy
The Hi-Level Quality Policy is achieved through the implementation of the Quality, Environmental, Occupational Health and Safety Management System (QHSEMS). Management by process is an essential principle of our QHSEMS Management System which follows ISO standards. It provides the process approach and continual improvement, measuring performance and continuing to achieve customer satisfaction.

ISO 9001 - Quality Management
This standard is based on a number of quality principles including a strong customer focus, the prevention and mitigation of risk, the process approach and continual improvement, measuring performance and continuing to achieve customer satisfaction.

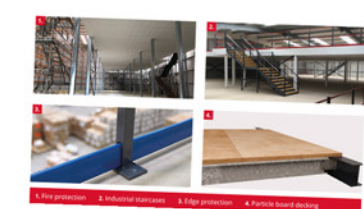

Design codes
We conform to all relevant design codes including BS 5938 437: Industrial Platform Floors (1997) and BS 5938 437: Industrial Platform Floors (2000).

Company Overview

Hi Level designs, manufactures and installs bespoke mezzanine floors across the UK and Europe. We aim to raise the standard of the industry through our relentless focus on quality and safety, providing an efficient and professional service throughout. From single storey floors to large, complex multi-level structures, we use high specification materials and incorporate unique design features as standard using our proprietary production system (QPS).

Charter Academy

CHARTER ACADEMY SIXTH FORM

OUTSTANDING PROVISION
The core aim of Charter Academy Sixth Form is to enable students to progress to good universities or employment after their A-levels. The Sixth Form will have a formal and informal ethos, ensuring a high level of achievement for all students. The Sixth Form will have a formal and informal ethos, ensuring a high level of achievement for all students. The Sixth Form will have a formal and informal ethos, ensuring a high level of achievement for all students.

OUTSTANDING SUPPORT
A key benefit of attending our academy sixth form is the high quality of support and guidance available to all students. Our staff are highly qualified and experienced, and we offer a range of support and guidance services to all students.

OUTSTANDING OPPORTUNITIES
Charter Academy is a member of the 100+ Schools network, which is a group of schools that have achieved outstanding results in the Ofsted inspections. This gives our students access to a wide range of opportunities and resources.

HIGH EXPECTATIONS
High expectations are a key feature of our academy. We expect all students to achieve their full potential and to be well-prepared for the challenges of the future.

ENRICHMENT

A Charter sixth form, we aim to nurture well rounded individuals who are confident, resilient, and capable of achieving their full potential. We offer a wide range of enrichment activities to all students, including sports, music, drama, and clubs.

STUDENT VOICE AND STUDENT LEADERSHIP

At Charter Academy, we see all our sixth form students as role models and potential leaders. The development of leadership skills is one of our main priorities, and all students in the sixth form are required to complete a leadership module as part of their curriculum.

PROFESSIONAL PATHWAYS

Professional Pathways is an innovative programme of study for students aged 16-18. Working alongside businesses, teachers are trained to develop a robust and high-quality vocational curriculum that is directly relevant to the workplace.

UCAS AND CAREERS ADVICE

Our aim is to give all students the opportunity to progress to a good university (such as those in the Russell Group or 100+ Group) or into employment. We offer a range of careers advice and support to all students, including UCAS support and job applications.

ARK SCHOOLS SIXTH FORM

There are currently 12 academies with sixth forms across the UK. Our aim is to create formal and informal ethos, ensuring a high level of achievement for all students. The Sixth Form will have a formal and informal ethos, ensuring a high level of achievement for all students.

AS AND A LEVEL FURTHER MATHEMATICS

Level Further Mathematics enables students to develop their understanding of mathematics and mathematical processes in a way that promotes confidence and fosters enjoyment. The course allows reasoning to generalize and to construct mathematical proofs, extend their range of mathematical skills and techniques and use them in more difficult, unstructured problems.

THE COURSE IS APPROPRIATE FOR STUDENTS WHO:
- are keen to develop their understanding of mathematics and mathematical processes
- enjoy applying their mind to solving problems
- want to develop their understanding of mathematics and mathematical processes
- want to develop their understanding of mathematics and mathematical processes
- want to develop their understanding of mathematics and mathematical processes

ASSESSMENT:
The AS level is assessed through two papers, each of 1.5 hours duration. The A level is assessed through three papers, each of 1.5 hours duration. The A level is assessed through three papers, each of 1.5 hours duration.
